

The Gingerbread Learning Center

Opening This Summer - North Gannon Location...

Brand new renovated state-of-the-art facility for teachers and therapists to continue giving the same quality services on Staten Island to their students as we have for the past 25 years.

Our facility on North Gannon Avenue has been modernized and fully expanded to double its existing space. Some of the renovations include; new therapy rooms, class space, new play yard, new indoor gym, new bathroom facility and new security system. The brand new space will be ready for students very soon. We are very excited to welcome our new and old students into this amazing new space.
